# Course 18 — AI for Legal Research, Drafting & Due Diligence

**Tier:** 2 (Practitioner-Tutor, domain: law) · **Days:** 3 · **Cohort max:** 16 · **Ratio:** 1:16
**Prerequisites:** Legal qualification or practice experience.
**Tools provisioned:** Legal research tool demo, LLM access, contract set, validation memo template.

**Day 1 — LLM capabilities and failure modes for legal work:** hallucinated citations, jurisdiction confusion; legal research tools — evaluation criteria.
**Day 2 — Contract review and due diligence workflows:** prompt design for clause extraction and risk flagging; privilege and confidentiality concerns.
**Day 3 — Capstone:** contract review workflow for a specific agreement type; produce a validation memo on AI accuracy.

**Capstone artifact:** Workflow + accuracy validation report.
**Tutor certification:** Tier 2 (law) + rubric calibration.
**Kit-specific notes:** Hallucinated-citation exercise built into Day 1; privilege-checklist mandatory.
