Course 24 — AI Video Production & Post-Production

Tier: 2 (Practitioner-Tutor, domain: video/media) · **Days:** 3 · **Cohort max:** 16 · **Ratio:** 1:16
Prerequisites: Video editing experience.
Tools provisioned: Runway/Pika access, editing suite, captioning/voice tools, production-log template.

Day 1 — AI video generation and editing tools; script-to-video workflows; limitations in coherence and length.
Day 2 — AI for post-production: auto-captioning, transcription, rough cuts, color matching; audio cleanup and voice synthesis.
Day 3 — Capstone: produce a 60–90 second video using AI at multiple stages; document tool choices and human intervention points.

Capstone artifact: Final video + production log.
Tutor certification: Tier 2 (media) + rubric calibration.
Kit-specific notes: Production-log template mandatory; licensed music/asset list supplied.
